RUOTA DI RICAMBIO

PIAGGIO & C.s.p.a.

È passato più di mezzo secolo da quel 23 aprile 1946, quando Piaggio depositò a Firenze il brevetto per «Motocicletta a complesso razionale di organi ed elementi con telaio combinato con parafanghi e cofani ricoprenti tutta la parte meccanica». Corradino D'Ascanio aveva progettato un veicolo a due ruote completamente nuovo e per l'epoca rivoluzionario, siglato provvisoriamente "Prototipo MP6", ma prontamente ribattezzato Vespa dallo stesso Enrico Piaggio. Ciò che è accaduto da quel giorno fa parte ormai della storia. Vespa non è soltanto uno scooter, ma si è ben presto affermato come "lo" scooter. È un mito costruito su oltre quindici milioni di veicoli prodotti e venduti in tutto il mondo. Che sono serviti non solo a motorizzare interi Paesi, ma anche ad accomunare popoli di lingue e di culture diverse. Vespa è una parola, anzi un concetto, assolutamente internazionale che rappresenta i sogni e il desiderio di libertà di intere generazioni. Vespa uno dei marchi più noti del mondo. Ed è, soprattutto, un fenomeno unico nella storia del costume: dapprima come mezzo per la conquista della mobilità individuale nell'Europa appena uscita dal conflitto mondiale, poi come simbolo degli anni della "Dolce Vita". Negli anni Sessanta e Settanta, offre due ruote alla "rivoluzione delle idee" che i giovani portano a compimento; e ancor oggi è la scelta "obbligata" di chi – per la propria mobilità – desidera non solo un veicolo moderno, sicuro e affidabile, ma anche un prodotto che si distingue immediatamente da tutti gli altri. Vespa è anche l'unico scooter al mondo che sa farsi amare, tanto da essere curato e conservato ben oltre il tempo di vita medio di ogni altro veicolo. Fino a "superare" la sua funzione di commuter per diventare oggetto di culto, vero e proprio pezzo da collezione. A quanti conservano con amore una Vespa d'epoca, Piaggio dedica ora – con Vespa Vintage – una linea esclusiva di parti di ricambio e di accessori. Pezzi assolutamente conformi agli originali, perché nati dai disegni dell'epoca recuperati dall'Archivio Storico di Piaggio anche in collaborazione con il Registro Storico Vespa, il Vespa Club d'Italia, la Federazione Internazionale dei Vespa Club. Ogni articolo di questo catalogo è realizzato con cura artigianale, utilizzando i migliori materiali – gli stessi che hanno reso proverbiale negli anni la robustezza e la longevità di ogni Vespa – affinché possa tramandarsi nel tempo una storia unica di stile, design e qualità.

More than half a century has passed since April 23, 1946 when Piaggio registered a patent in Florence for "Motorcycle with rational complex of pieces and elements with frame combined with fender and hoods covering the entire mechanical part". Corradino D'Ascanio had designed a totally new – and at that time revolutionary – two-wheeled vehicle temporarily designated "Prototype MP6", but soon renamed "Vespa" by Enrico Piaggio himself. What happened that day went down in history. The Vespa is not only a scooter, but was soon established as "the" scooter. The legend has been built up by the 15 million vehicles produced and sold worldwide, which have served not only to put entire countries on wheels, but also to bring people of diverse countries and languages together. Vespa: not only a word but an international concept, representing the dreams and desire for freedom of entire generations. Vespa is one of the most famous brand names in the world and above all a unique phenomenon in the history of tradition, first as a means of conquering personal mobility in post war Europe, and later as a symbol of the "dolce vita". In the 1960's and 70's it provided two wheels to the younger generation's revolution of ideas; and even today, it is the "must have" choice for those who, for their own mobility, desire not only a modern vehicle, reliable and safe, but also a product that immediately stands out from all the others. The Vespa is also the only scooter in the world that inspires love, so much so that it is cared for and maintained far beyond the usual life of other vehicles; to the point that it surpasses its function as commuter to become a cult object, a real collector's item. For those who lovingly maintain a vintage Vespa, Piaggio now dedicates Vespa Vintage – an exclusive line of spare parts and accessories. These parts are identical to the originals since they are created from original drawings, retrieved from the Piaggio Historical Archives, also in cooperation with the Vespa Historical Registry, the Vespa Club of Italy and the international Federation of Vespa Clubs. Each article in this catalogue is made with a craftsman's care, using the best possible materials – the same which over the years have made the strength and longevity of each Vespa legendary – in order to hand down its unique history of design, style, and quality.
